## PROJECTS

*DECEMBER 2021 - PRESENT*

### **DISCORD BOT WITH PYTHON**

Multi-purpose discord bot that is mostly used for entertainment. Can also be used for searching for images, some image manipulation, getting summaries of Wikipedia articles, Star Wars wiki pages, paleontology pages, perform calculations by converting an expression to postfix and then evaluating it using a stack. Uses PILLOW, web-scraping, and JSON files for implementation

*APRIL 2021 – JULY 2021*

### **AI MEDIC WITH IBM WATSON**

AI Medic is an AI based software that can work as a primary healthcare consultant for people to solve common health problems. This project was one of the finalists in IBM EdTech Youth Challenge India, 2021.

*APRIL 2020 – JULY 2020*

### **AI AUTISM ASSISTANT WITH PYTHON**

AI Autism Assistant is an AI based software that can teach people with Autism to understand emotions and interact with others in the society. This was developed in association with Intel and is patent pending.

## EXPERIENCE

*AUGUST 2023 – PRESENT*

### **COURSE ASSISTANT, CS 128 – INTRO TO COMPUTER SCIENCE II AT UIUC**

Worked on assisting students on the material in this course and with the projects assigned as homework.

*JUNE 2023 – JULY 2023*

### **INTERNSHIP, LUIT INFOTECH PVT. LTD.**

Worked on porting the company website over to a Laravel framework. Ported over 120 pages from standard HTML and PHP to Laravel. Also worked on setting up the dynamic contact page with a mail server.

*OCTOBER 2021*

### **HEAD OF MARKETING, ECONHACKS BANGALORE**

Headed the marketing efforts at EconHacks Bangalore. Successfully organized an Economics based Hackathon from October 9-11. The hackathon had over 250 participants from various schools and colleges

*OCTOBER 2021*

### **INTERNSHIP, IBM CORP. INDIA**

Worked on an online internship program under the mentorship of an IBM Mentor. During this internship, I and my teammates designed an AI enhanced immersive learning experience using AR and VR.
